- Winter courses in agriculture, 18, 32

The University Calendar for 1942-43

May 25-June 27

First five-week Summer Session. Primarily for students now in residence.

June 1-September 12

Summer terms of the Law School and the Veterinary College (to which new students will be admitted), and the Colleges of Engineering and Architecture (for students now in residence).

June 29-September 12

Eleven-week Summer Session, primarily for undergraduates. Entering freshmen in the Colleges of Arts and Sciences, Architecture, Engineering, Agriculture, and the Department of Hotel Administration will be admitted. For information regarding entrance at this time, the prospective student should address the Director of Admissions.

June 29-August 8

Six-week Summer Session, primarily for teachers, school administrators, and graduates.

August 10-September 12

Second five-week Summer Session, primarily for graduates and advanced undergraduates.

FALL TERM

1942

Sept. 9-10, *Wed.-Thurs.*, Entrance examinations.

Sept. 28, *Monday*, Registration and assignment, new students.

Sept. 29, *Tuesday*, Registration and assignment, old students.

Oct. 1, *Thursday*, Instruction begins at 8 A.M.

Oct. 22, *Thursday*, Last day for the payment of tuition for the fall term.

Nov. 26, *Thursday*, *Thanksgiving Day*, a holiday.

Dec. 19, *Saturday*, Instruction suspended at 12:50 P.M.

1943

(*Christmas Recess*)

Jan. 4, *Monday*, Instruction resumed at 8 A.M.

Jan. 11, *Monday*, Founder's Day.

Jan. 21, *Thursday*, Final examinations begin.

Jan. 28, *Thursday*, Final examinations end.

1943

SPRING TERM

Jan.	29, <i>Friday</i> ,	Registration of all students.
Feb.	1, <i>Monday</i> ,	Instruction begins at 8 A.M.
Feb.	22, <i>Monday</i> ,	Last day for the payment of tuition for the spring term.
March	27, <i>Saturday</i> ,	Instruction suspended at 12:50 P.M. (<i>Spring Recess</i>)
April	5, <i>Monday</i> ,	Instruction resumed at 8 A.M.
May	17, <i>Monday</i> ,	Final examinations begin.
May	22, <i>Saturday</i> ,	Final examinations end.
May	24, <i>Monday</i> ,	COMMENCEMENT.

The Summer Term and the Summer Sessions

Candidates for admission on June 29, if they wish early action on their applications, should take the Scholastic Aptitude Test and three of the Achievement Tests to be given by the College Entrance Examination Board on April 11. (See page 20.)

For information on courses in the fifteen-week summer term, the prospective student should consult the *Announcement* of the College or School in which he plans to work,—that is, the College of Engineering, the College of Architecture, the Veterinary College, or the Law School.

For information on courses in the three Summer Sessions, the prospective student should consult the announcement of the Summer Sessions, or address the Director of the Summer Sessions.

For information about entrance in the summer to any of the Colleges or Schools, the prospective student should address the Director of Admissions.

(For the Calendar of the Medical College in New York City, see the *Announcement of the Medical College*.)

(See also page 17.)

CORNELL UNIVERSITY OFFICIAL PUBLICATION

PUBLISHED BY CORNELL UNIVERSITY AT ITHACA, N. Y.

Monthly in September, October, and November
Semi-monthly, December to August inclusive

[Entered as second-class matter, December 14, 1916, at the post office at Ithaca,
New York, under the act of August 24, 1912]

Cornell University

ITS COLLEGES

AND SCHOOLS

CORNELL UNIVERSITY was incorporated by the Legislature of the State of New York on April 27, 1865, and was opened on October 7, 1868. Its existence is due to the combined wisdom and bounty of the United States, the State of New York, and Ezra Cornell. It is one of the institutions which share in the benefits of the Federal government's educational land grant of 1862. Most of its endowment, however, has come from private benefactors, of whom Ezra Cornell was the first and the chief. Three of its colleges, designated by name below, are supported by annual appropriation of the State of New York but are under the University's administration.

Every student of Cornell University during the regular session is enrolled in one or another of several colleges and schools, as follows:

The College of Arts and Sciences, whose regular course of study leads to the degree of Bachelor of Arts.

The College of Architecture, in which a student may earn the bachelor's degree in Architecture, Landscape Architecture, or Fine Arts.

The College of Engineering, composed of four Schools, those of Civil, Mechanical, Electrical, and Chemical Engineering, whose regular courses of study lead to bachelor's degrees corresponding in name with the names of the respective schools and also to the degree of Bachelor of Science in Administrative Engineering.

The New York State College of Agriculture, whose graduates receive the degree of Bachelor of Science.

The New York State College of Home Economics, whose regular course of study leads to the degree of Bachelor of Science. A *Course in Hotel Administration*, leading also to the degree of Bachelor of Science, is joined to this college for convenience of administration but is otherwise distinct from it.

The New York State Veterinary College, in which a student may earn the degree of Doctor of Veterinary Medicine.

The Law School, whose graduates receive the degree of Bachelor of Laws.

The Medical College, which conducts its work at 1300 York Avenue, New York City, in organic association with the New York Hospital, and on whose graduates the University confers the degree of Doctor of Medicine.

The Graduate School, which offers to adequately trained students

facilities for advanced study and research and in which the student's work may lead to the degree of Doctor of Philosophy, the degree of Doctor of the Science of Law, or the master's degree in Arts, Science, Agriculture, Architecture, Landscape Architecture, Fine Arts, Regional Planning, Laws, Education, or Engineering.

A student who has satisfied the requirements for any baccalaureate degree is not recommended for any other baccalaureate degree until he has completed at least one year of further residence and of work acceptable to the faculty on whose recommendation the second baccalaureate degree is to be conferred.

Degrees are conferred formally at the annual Commencement in May and without formal exercises in February and September.

Cornell University is situated at Ithaca, in the central part of the State of New York, about seven hours by rail from the City of New York and about three hours from Buffalo. Ithaca is accessible by way of two trunk lines, the Lackawanna and Lehigh Valley Railroads, and it has connections by rail or bus with several stations on the New York Central railway system.

TABLE I
Entrance Subjects and Units

The subjects that may be offered for entrance are named in the following list and the figure in parenthesis after each subject indicates its value expressed in units and shows the minimum and maximum credit allowed for it. A unit represents a year's study of any subject in a secondary school, or about one-fourth of a full year's work, since a four-year secondary school curriculum should be regarded as representing not more than sixteen units. Ordinarily a year's work in any subject cannot be done satisfactorily in less than 120 sixty-minute hours or their equivalent. Two hours of laboratory work are considered equivalent to one hour of prepared recitation. In Drawing and Manual Training 240 sixty-minute hours are required for one unit and 120 for one-half unit.

<i>Subject</i>	<i>Unit</i>	<i>Subject</i>	<i>Unit</i>
1. English, 4 years.....	(3)	9f. Plane Trigonometry.....	($\frac{1}{2}$)
2. 1st to 3rd Year Greek.....	(1, 2, 3)	10. Physics.....	(1)
3. 1st to 4th Year Latin.....	(1, 2, 3, 4)	11. Chemistry.....	(1)
4. 1st to 4th Year German.....	(1, 2, 3, 4)	12. Physical Geography.....	($\frac{1}{2}$ -1)
5. 1st to 4th Year French.....	(1, 2, 3, 4)	13. Biology*.....	(1)
6. 1st to 4th Year Spanish.....	(1, 2, 3, 4)	13a. General Science.....	(1)
7. 1st to 3rd Year Italian.....	(1, 2, 3)	14. Botany*.....	($\frac{1}{2}$ -1)
8a. Ancient History.....	($\frac{1}{2}$ -1)	14a. Zoology*.....	($\frac{1}{2}$ -1)
8b. European History.....	($\frac{1}{2}$ -1)	15. Bookkeeping.....	($\frac{1}{2}$ -1)
8c. English History.....	($\frac{1}{2}$ -1)	16. Agriculture, Home Economics....	($\frac{1}{2}$ -4)
8d. American History and Civics....	($\frac{1}{2}$ -1)	17. Drawing.....	($\frac{1}{2}$ -1)
9a. Elementary Algebra.....	(1)	18. Manual Training.....	($\frac{1}{2}$ -1)
9b. Intermediate Algebra.....	(1)	19. Any high school subject or sub-	
9c. Advanced Algebra.....	($\frac{1}{2}$)	jects not already used and ac-	
9d. Plane Geometry.....	(1)	ceptable to the University	($\frac{1}{2}$ -2)
9e. Solid Geometry.....	($\frac{1}{2}$)		

*Note the following restrictions:

If an applicant has counted Biology (1) he may not also count Botany ($\frac{1}{2}$) or Zoology ($\frac{1}{2}$).

TABLE II

Subjects and Units Required by the Several Colleges

Note. All candidates for entrance should read what is said about "selective admission" on pages 11, 15, 16.

The letters in parenthesis, A, B, C, D, E, F, refer to supplementary or explanatory notes on pages 9-10.

For the *Graduate School*, the *Law School*, the *Medical College*, and the *Veterinary College*, see pages 16-17.

The number of years for obtaining a degree, as given below, refers to "college years." Under an accelerated program, 4 college years may be comprised within three calendar years.

ARTS AND SCIENCES.—A.B., 4 years.

15 units representing completion of a secondary school course giving satisfactory preparation for the work of the College. The 15 units should, in the main, be made up of *English*, *foreign language* (ancient or modern), *mathematics*, *science*, and *social studies* (*including history*). The Scholastic Aptitude Test of the College Entrance Examination Board is required. (A)

AGRICULTURE.—B.S., 4 years, or HOTEL ADMINISTRATION.—B.S., 4 years.

15 units representing completion of a secondary school course which must include *English*, 4 years, 3 units, and *mathematics*, 2 units. (B)

HOME ECONOMICS.—B.S., 4 years.

15 units, including *English*, 4 years, 3 units; one *foreign language*, 3 years, 3 units (or 2 years in each of two foreign languages, 4 units) (C); *elementary algebra*, 1 unit; *plane geometry*, 1 unit; *history*, 1 unit; electives, 6 (or 5) units. (A and B)

ARCHITECTURE.—B.Arch., B.F.A., B.L.A., 5 years.

15 units, including *English*, 4 years, 3 units; one *foreign language*, 3 years, 3 units (or 2 years in each of two foreign languages, 4 units) (C); or *history*, 3 units; or *science*, 3 units; *elementary and intermediate algebra*, 2 units; *plane geometry*, 1 unit; FOR B.Arch AND B.L.A.: any two half-units from the following: *advanced algebra*, $\frac{1}{2}$, *solid geometry*, $\frac{1}{2}$, *trigonometry*, $\frac{1}{2}$ (D); electives, 4, 5, or 6 units. (D)

ENGINEERING.—B.C.E., B.M.E., B.E.E., B.S. in A.E., 4 years; B.Chem.E., 5 years.

15 units, including *English*, 4 years, 3 units; one *foreign language*, 2 years, 2 units (C), or *history*, 2 units; *elementary and intermediate algebra*, 2 units; *plane geometry*, 1 unit; *trigonometry*, $\frac{1}{2}$ unit; either *advanced algebra*, $\frac{1}{2}$ unit, or *solid geometry*, $\frac{1}{2}$ unit; *chemistry*, 1 unit, or *physics*, 1 unit (E); electives, 5 units. (F)

TABLE II

Supplementary Notes

(A) *The Scholastic Aptitude Test of the College Entrance Examination Board.* All candidates for admission to the College of Arts and Sciences, candidates for admission as freshmen to the College of Home Economics who are not offering the New York State Regents Examinations to cover the subjects and units required, and any candidates for admission as freshmen to the College of Agriculture who may be so instructed by the Committee on Admissions, are required to take the Scholastic Aptitude Test of the College Entrance Examination Board, and request the Board to report the result to the Director of Admissions, Cornell University. No special preparation will be needed for this test. Any such candidates for entrance in 1942 should, therefore, write AT ONCE to the

College Entrance Examination Board,
431 West 117th Street,
New York, N. Y.

requesting a blank form of application for the Scholastic Aptitude Test to be given at 9 A.M. on April 11, 1942. The Board will furnish a bulletin of information about the tests, and a list of examination centers. Applications for the examination at points west of the Mississippi are due in the office of the Board by March 14, and for examination east of the Mississippi by March 21. The fee for the April Scholastic Aptitude Test (payable to the Board) is five dollars.

The selection of entrants begins in the month of April. Candidates should accordingly take the April Scholastic Aptitude Test. If, however, an applicant for entrance in 1942, cannot arrange for the April test, he may apply to the Board for the corresponding test to be given at 9 A.M. on Saturday, June 13, 1942. Students who take the June test must expect to learn of the Committee's final action later than those who take the April test.

(B) *The State Vocational Diplomas in Agriculture and Homemaking.* The College of Agriculture and the College of Home Economics may admit those applicants who hold the New York State Vocational Diploma in Agriculture or Homemaking. These diplomas are not accepted unless *mathematics*, 2 units, is included for entrance to Agriculture, and *elementary algebra*, 1 unit, and either *plane geometry*, 1 unit, or *physics*, 1 unit, are included for entrance to Home Economics.

[continued on next page]

TABLE II
Supplementary Notes, Concluded

(C) *The Foreign Languages.* French or German is preferred for the foreign languages offered for entrance to the College of Engineering or the College of Architecture. Two units in each of two foreign languages may be offered instead of 3 units in one language. When 4 units of foreign language are thus offered (instead of 3) the elective units necessary to make the total of 15 are correspondingly reduced by 1.

When at least 3 units in a single foreign language are offered, any number of elective units in a second foreign language will be accepted. When at least 2 units are offered in a second foreign language, any number of units in a third language will be accepted.

(D) *Mathematics and Electives for Architecture.* For admission to the College of Architecture an applicant must include for the course in Architecture or Landscape Architecture *two* out of the *three* half-unit subjects, *solid geometry*, *advanced algebra*, *plane trigonometry*. For the course in Fine Arts (Teacher Training), neither advanced algebra, nor solid geometry, nor plane trigonometry is required. It is strongly recommended that both *physics* and *chemistry* be offered among the electives by all entering students; students not offering physics or chemistry for entrance may be required to study either one (or both) in college.

(E) *Chemistry for B.Chem.E.* Chemistry is required for entrance to the five-year course leading to the degree of Bachelor of Chemical Engineering.

(F) *Electives for Engineering.* For entrance to Engineering it is strongly recommended that at least three of the elective units be offered in *language* or *history*.

Admission to Cornell University

UNDERGRADUATE

COURSES All of the colleges of Cornell University that confer baccalaureate degrees presuppose, on the part of an applicant for admission, an amount of preparation equivalent to that gained by four years of successful work in a high school of good standing. The entrance requirements of these colleges are set forth in Table II on pages 8-10. Their requirements are alike in some respects, but there are important differences. The faculty of each college determines its requirements and may make changes in them at any time, to take effect after due notice.

ADMISSIONS

SELECTIVE Five of the University's colleges limit the number of new students to be admitted. They are the College of Arts and Sciences, the College of Architecture, the College of Engineering, the College of Home Economics (including the Course in Hotel Administration), and the Veterinary College. Candidates for admission to any of them are requested to give particular attention to what is said on pages 15-16 about the limit set to the number admitted to the entering class, and to note the method used for selecting the entrants from among the eligible candidates.

Applications for admission to any of the University's divisions (except the Graduate School, the Law School, the Medical College, and the Veterinary College) are entertained from three classes of persons, as follows: (1) those who wish to begin as freshmen, in some college of the University, a regular course of study leading to a degree; (2) those who, having attended another institution of collegiate rank, wish to enter some college of the University; (3) those who wish to be enrolled as special students not candidates for a degree. The conditions of admission for these three classes of persons will now be separately defined.

ADMISSION AS

A FRESHMAN Any student beginning a course of study leading to a degree in any of Cornell University's colleges must be at least sixteen years of age. Every applicant for admission must show that he has a satisfactory knowledge of the subjects required for entrance to the college of his choice, and he must do so in one or more of four ways, as follows:

I. By presenting acceptable ratings in the April or June Tests of the College Entrance Examination Board in the required subjects. For particulars see page 20.

II. By passing the necessary Regents examinations. This option is for students who have prepared in New York State. For particulars see page 20.

III. By presenting an acceptable school certificate. For particulars see page 21.

IV. By presenting acceptable ratings in certain of the September Tests of the College Entrance Examination Board. For particulars see page 21.

FROM ANOTHER

INSTITUTION A student who, having attended a college or a university, wishes to be admitted to a regular undergraduate course in a college of Cornell University, should file by mail with the Director of Admissions, on an official form obtained from that officer, an application for admission to one of the University's colleges, and an official certificate from the college or university which he has already attended, giving evidence of (1) his honorable dismissal, (2) his entrance credit in detail, (3) his terms of attendance and the amount of work that he has taken, and (4) a detailed statement of the courses that he has pursued. He should also send a copy of the institution's catalogue on which he has written his name and has marked the entrance requirements that he has satisfied and each subject that he has taken. An applicant for admission from another institution should consult the *Announcement* of the college that he intends to enter here.

AS A SPECIAL

STUDENT Any candidate for admission as a special student will do well to consult the *Announcement* of the college that he wishes to enter here, because the requirements of the several colleges are not all alike. Special students are of two classes, as follows:

(1) A person, especially one of comparative maturity, may, in certain circumstances, even without satisfying the entrance requirements, be admitted to some one of the colleges of Cornell University as a special student not a candidate for a degree. The applicant must give evidence of ability to do creditable work in the college and his application for admission must be recommended by the department in which he proposes to do the main part of his work. He must file his application with the Director of Admissions.

If a person admitted as a special student without satisfying the entrance requirements subsequently satisfies those requirements, he may be graduated under the ordinary regulations that obtain in the college that he is studying in. He will not be permitted, however, to make up deficiencies in entrance subjects by attending University instruction in those subjects.

Special students in the College of Arts and Sciences must be at least twenty-three years of age; in the Law School or the College of Architecture, twenty-one years of age. Special students in the College of Agriculture must have had two full years of recent farm experience and, unless they can satisfy all the entrance requirements for the regular course, must be at least twenty-one years of age. The College of Home Economics can accommodate only a limited number of special students and before formally applying candidates should consult the college as to the possibility of acceptance.

(2) A person who already holds a baccalaureate degree and wishes to pursue further work at the undergraduate level may also apply for admission as a special student, regardless of the age requirements stated above. Such a student must have had adequate preparation for the program contemplated and must secure the approval of the college which he purposes to enter. He must file his application with the Director of Admissions.

RULES GOVERNING

ADMISSION Applicants for admission must not only satisfy the entrance requirements but must also comply with certain rules of the University, as follows:

A CERTIFICATE OF

CHARACTER 1. Every candidate for admission to an undergraduate course of study must file with his application at the Office of Admissions either a certificate of good moral character or, if he has attended some other college or university without graduating from it, a certificate of honorable dismissal from it.

A DEPOSIT

OF \$25 2. Every candidate for admission to an undergraduate course of study must deposit twenty-five dollars with the University. Candidates are warned not to send cash through the mails. A check, draft, or order should be payable to *Cornell University* and should be sent to the Office of Admissions, Cornell University, Ithaca, N. Y.

A candidate must make the deposit not later than a certain fixed date. If the candidate is applying for admission in September the due date of the deposit is as follows:

- June 1 for the College of Arts and Sciences.
- “ “ “ College of Architecture.
- “ “ “ College of Home Economics.
- “ “ “ Course in Hotel Administration.
- “ “ “ Veterinary College.
- August 1 for the College of Engineering.
- “ “ “ College of Agriculture.

If the candidate is to be admitted to any of the colleges in February the deposit must be made not later than January 1. If he is to be admitted to any of the colleges in June the deposit must be made not later than June 1.

If the candidate matriculates, the deposit will be credited to his account, \$10 for the matriculation fee, \$1 for an examination-book fee, and \$14 as a guaranty fund, which every undergraduate student is required to maintain and which is to be refunded upon his graduation or permanent withdrawal, less any indebtedness to the University.

If admission is denied a candidate, the deposit is refunded in full at any time.

A candidate may withdraw the application for admission, but a charge of \$10 is regularly made for accrued expenses unless the application is withdrawn and a refund of the deposit in full is claimed before the due date, as stated above for each college. If an application is not withdrawn until after the due date of the college concerned, but is withdrawn before August 31, the \$10 charged for accrued expense is deducted and \$15 of the deposit is refunded. No refund is made to an applicant who withdraws the application after August 31.

In the case of applications for admission in February, a withdrawal after January 1 incurs the regular charge of \$10, and no refund is made for withdrawal after January 31.

The winner of a New York State Tuition Scholarship in Cornell University may apply for admission to the University and make the required deposit of \$25 immediately after receiving formal notice of his appointment from the Commissioner of Education at Albany.

A CERTIFICATE OF

VACCINATION

3. Every candidate for matriculation must submit to the Director of Admissions a satisfactory certificate of vaccination against smallpox, not later than June 1 if he is to be admitted in June, not later than August 1 if he is to be admitted in September, or not later than January 1 if he is to be admitted in February. It will be accepted as satisfactory only if it certifies that within the last five years a successful vaccination has been performed or three unsuccessful attempts at vaccination have been made.

A CHEST

RADIOGRAPH

4. Every student matriculating in a regular School or College of the University must, within the month preceding or the month following matriculation, either present to

the University Health Officer for permanent filing at the Infirmary a satisfactory chest radiograph taken within that two-month period, or submit to chest radiographing at the Infirmary at his own expense but at a special student rate.

SELECTIVE

ADMISSION In some of the University's divisions the number of new students to be admitted each year is limited and those who are to be admitted are selected from among the qualified applicants for admission. Divisions that limit their enrollment are the College of Arts and Sciences, the College of Architecture, the College of Engineering, the College of Home Economics, the Veterinary College, and the Course in Hotel Administration.

In all of the undergraduate divisions of the University the attempt is made to select for admission those applicants who will profit most from the work of the divisions to which they have made application. Usually there are more applicants satisfying the minimum requirement for entrance to any of these divisions than can be admitted. A Committee on Admissions in each division selects its entrants from among the eligible candidates, taking into account not only formal preparation but also the available evidence bearing upon each candidate's character, seriousness of purpose, and fitness for the work that he proposes to undertake.

Although priority of application is not accounted a determining factor of selection, yet a candidate who completes the whole process of application in good season is advantaged, because the admissions committee needs time for sifting the evidence and because the list of entrants is filled as speedily as possible. March 1 is the last date for filing application for admission in September to the College of Home Economics, June 1 is the last date for the College of Arts and Sciences or the College of Architecture, or the Course in Hotel Administration and August 1 is the last date for the College of Engineering or the College of Agriculture. In 1942 the Veterinary College will admit only at the beginning of the Summer Term, June 1. Applications for the Veterinary College this year are due therefore May 1. Before any application can be finally approved the Office of Admissions must have received

(1) a check, draft, or order (payable to Cornell University for twenty-five dollars (see the deposit requirement, above);

(2, a) the application form filled out and returned by the candidate, (b) the principal's report, and (c) the required reference forms;

(3) credentials satisfying in full the scholastic requirements for entrance (see "the four ways of entrance," below);

(4) in case the applicant has been in attendance at another college or university, a complete transcript of his record, a certificate of honorable dismissal, and a properly marked catalogue of the institution attended.

THE GRADUATE

SCHOOL For admission to the Graduate School as a candidate for an advanced degree an applicant must (1) have received a baccalaureate degree or an equivalent from a college or university of recognized standing and must (2) by scholastic record or otherwise show promise of ability to engage profitably in advanced study and research. Any study pursued since graduation, or any experience gained by professional work, is taken into account in deciding whether a candidate's preparation as a whole is such as to justify his admission. Seniors in the colleges of Cornell University who have completed the work required for the bachelor's degree may be admitted to the Graduate School under certain conditions.

Every candidate for matriculation in the Graduate School must submit to the school a satisfactory certificate of vaccination against smallpox. It will be accepted as satisfactory only if it certifies that within the last five years a successful vaccination has been performed or three unsuccessful attempts at vaccination have been made.

The rule given on page 14 concerning chest radiographs applies to graduate students also.

Prospective applicants should consult the *Announcement of the Graduate School*. Correspondence should be addressed to the Office of the Graduate School, Cornell University.

THE LAW

SCHOOL Candidates for admission are required to present evidence of having progressed three-quarters of the way toward a bachelor's degree from an approved college or university. The school gives a three-year course leading to the degree of Bachelor of Laws. By continuous attendance, including two summer terms, the entire course may be accomplished in two calendar years. Students of the College of Arts and Sciences of Cornell University are allowed in their Senior year to elect the first year of the course in Law and so obtain the degrees of Bachelor of Arts and Bachelor of

Laws in six years. Prospective applicants should consult the *Announcement of the Cornell Law School*.

THE MEDICAL

COLLEGE The Cornell University Medical College is situated in New York City. Prospective candidates for admission should consult the *Announcement of the Medical College*, to be obtained by application to The Secretary, Cornell University Medical College, 1300 York Avenue, New York. The following classes of candidates are admitted to the Medical College: (1) Graduates of approved colleges or scientific schools; (2) Seniors in good standing in approved colleges or scientific schools upon condition that their faculty will permit them to substitute the first year in the Cornell University Medical College for the fourth year of their college course, and will confer upon them the bachelor's degree upon the satisfactory completion of the year's work. No student is permitted under this clause to enter the second year of the medical curriculum without the bachelor's degree obtained after at least three years of undergraduate college work.

THE VETERINARY

COLLEGE An applicant for admission to the Veterinary College must be eligible to obtain from the New York State Education Department a Veterinary Student Qualifying Certificate. Correspondence regarding the requirements for this certificate should be addressed to the Supervisor of Professional Schools Qualifying Certificates, State Education Department, Albany, New York. Before entrance to the Veterinary College a student must complete at least one year of college study, including *English*, 6 hours, *chemistry*, 6 hours, and *biology (or zoology)*, 6 hours.

In 1942 the Veterinary College will admit new students on June 1 only. The next time after that for the admission of new students will be February, 1943. Prospective students should consult the *Announcement of the Veterinary College*.

THE SUMMER

SESSION To meet the demands of the present emergency a greatly expanded program of instruction will be offered in the summer of 1942. The College of Architecture, the College of Engineering, the Law School, and the Veterinary College will offer full fifteen-week terms to begin on June 1. The summer term of the Medical College will begin on July 1. For further information, see the *Announcement* of the particular School or College.

The usual Summer Session, six weeks in length, will begin on June 29 and end on August 8. In this session the usual series of courses for teachers, school administrators, and graduate and undergraduate students will be offered. A tuition fee of \$60 is charged for the six-week Session.

An eleven-week Summer Session will also begin on June 29. It will end on September 12. In this Session courses primarily for undergraduates in the College of Arts and Sciences will be offered; special attention will be given to the needs of pre-medical students and of students planning to make chemistry or physics their major study. To this Session beginning Freshmen in Arts and Sciences, Engineering, Architecture, or Hotel Administration may be admitted. A tuition fee of \$120 is charged for the eleven-week Session.

A new student intending to enter as a Freshman on June 29, if he wishes early action on his application, should take the Scholastic Aptitude Test and three of the Achievement Tests to be given by the College Entrance Examination Board on April 11. (See page 20.)

The *Announcement of the Summer Session* is published each year in March, and the Secretary of the University sends it free upon request. Correspondence with regard to courses and other details should be addressed to the Director of the Summer Session.

An undergraduate student who is on probation or whose name has been removed from the rolls of any college at Cornell University is admitted to the Summer Session only upon recommendation of the college concerned. An undergraduate student who is registered in an institution other than Cornell and who wishes to enter the Summer Session must secure from his dean or other competent authority a certificate of good standing. Students on probation and students whose names have been removed from the rolls of the institution are regarded as not in good standing and accordingly are not admitted.

THE WINTER

COURSES The only requirement for admission to the Winter Courses in Agriculture is that the applicant be at least eighteen years of age. In order to make the best use of the instruction, a student should have had a good common school education. The Winter Courses extend over a period of twelve weeks, beginning in November and ending about the middle of February. A special *Announcement*, giving details of the work, may be obtained upon application to the Secretary of the University or to the Secretary of the College of Agriculture.

EXTRAMURAL

COURSES Extramural courses are established in various centers of the State as needs and interests may require. These courses are open to all persons qualified to do the work of any of the courses offered. The work is carried on by regular members of the staff and the standards maintained are the same as for work on the campus. The tuition charge is \$10 per credit hour. The courses are designed for those who wish to carry on some university work while engaged in a vocation which makes it impossible for them to enroll as students in residence. Anyone interested in courses already established or in the organization of a course in his community should address the Director of Extramural Courses.

ADMISSION IN

FEBRUARY Some of the University's colleges and schools admit new students at the beginning of the second

term in February and some do not. Those which do so grant admission under various conditions. Applicants for admission at the beginning of the second term must submit their applications to the Director of Admissions, together with the \$25 deposit and the vaccination certificate, not later than January 1.

In general, the College of Arts and Sciences admits at the beginning of the second term only those applicants who have been accepted for admission in September but who, for some good reason, failed to register then. To this general rule exception is regularly made for students wishing to transfer in February from other colleges of Cornell University, but not for students wishing to transfer from other collegiate institutions.

Only in exceptional circumstances are applicants admitted to the New York State College of Agriculture at the beginning of the second term in February. Special arrangements do not exist for students entering at midyear. Since it is practically impossible for those entering in February to schedule a satisfactory program of studies, prospective students should plan to enter in September.

Freshmen students are normally not admitted to the College of Engineering in February. Students transferring from another institution of collegiate rank may be admitted in February with advanced standing, provided all requirements are satisfied and the applicant is prepared to pursue a satisfactory course of study during the second term.

In the College of Architecture, only students who can offer satisfactory credit towards advanced standing in technical subjects will be admitted in February.

New students are not admitted to the College of Home Economics in February.

The New York State Veterinary College will admit a new class in February 1943.

The Four Ways of Entrance

I. THE APRIL

AND JUNE TESTS The College Entrance Examination Board will offer a program of Tests in April and again in June 1942. The results of either set (or both) may be offered by a candidate for admission to Cornell University as a part of the evidence of his preparation. (On the requirement of the Scholastic Aptitude Test, see Note A on page 9, above; on the requirement of the Scholastic Aptitude Test and three of the Achievement Tests for entrance as a freshman in the summer, see page 4, above.)

The schedule for the April and June Tests follows:

	<i>April</i>	<i>June</i>
Mathematics Attainment Test	(Not offered in April)	Friday the 12th, 2 p.m.
Scholastic Aptitude Test	Saturday the 11th, 9 a.m.	Saturday the 13th, 9 a.m.
Achievement Tests	Saturday the 11th, 2 p.m.	Saturday the 13th, 2 p.m.

The Achievement Tests—of which a student may take not more than three on one afternoon—are in the following subjects:

Social Studies	Latin Reading	Chemistry
French Reading	Spanish Reading	Physics
German Reading	Biology	Spatial Relations

For a Bulletin of Information describing the Tests and listing the Examination Centers, write to
The College Entrance Examination Board
431 W. 117th Street, New York City.

(For a schedule of the September Tests, see IV, below.)

II. THE REGENTS

EXAMINATIONS The regular Regents examinations of the Education Department of the State of New York are accepted under certain conditions as the full equivalents of entrance examinations in the corresponding subjects. All Regents credentials of candidates for admission in September should be sent by mail to the Office of Admissions of Cornell University, Ithaca, N. Y., as early as possible in the summer and certainly not later than August 1 in order to ensure their timely consideration.

File the Complete Regents Record. A candidate who wishes to offer the Regents Examinations of New York State towards entrance should request the State Department of Education to send to the Office of Admissions of the University a report of the complete Regents record.

A student who has obtained an unsatisfactory rating in an examination of the College Entrance Examination Board in any subject may not offer for entrance credit in the subject a Regents mark earned previously or in the same month.

VOCATIONAL DIPLOMA

The New York State High School Diploma in Vocational Agriculture or Vocational Homemaking satisfies in full the entrance requirements for the four-year course in Agriculture, provided mathematics, 2 units, be included. For Home Economics the State Diploma in Homemaking will meet the requirements provided Elementary Algebra, 1 unit, and either Plane Geometry, 1 unit, or Physics, 1 unit, be included.

Notebooks and teachers' statements are not generally required and should not be sent unless specifically asked for in a particular case.

III. THE SCHOOL

CERTIFICATE

Certificates of work done in public or private schools may be accepted in lieu of passing entrance examinations, if the University authorities are satisfied with the standing of the school and if the applicant has completed a full regular course in the school and has been duly graduated after at least one year in the school.

The University does not engage in advance to accept the certificate of any school and the previous acceptance of certificates does not establish a permanent right to expect further acceptance, but merely raises the presumption that similar certificates will be accepted.

Three separate steps must be taken before a student of any school will, on its certificate, be admitted to a college of Cornell University: (a) The principal of the school must by formal application secure the certificate privilege for his school; (b) the principal of the school must submit a school certificate duly filled out for the individual candidate for admission; (c) the candidate himself must make application for admission to the particular college of Cornell University in which he intends to study. Official blanks for each of these purposes may be obtained from the University's Director of Admissions and when filled out should be returned to him.

The school certificate should be forwarded by the principal within ten days after the graduation of the candidate. The application for the certificate privilege should, unless previously granted, accompany the school certificate. The candidate's personal application for admission to a particular college should be sent as early as possible after the candidate has decided in which college of Cornell University he desires to study. The application will be considered merely as a declaration of intention, and will impose no obligation upon the prospective student.

The school certificate should include all the subjects that the candidate has satisfactorily completed in the school, whether or not they are required by the particular college in which the candidate proposes to study. Neglect to comply with this regulation may entail serious inconvenience and disappointment to the student. The school certificate may include subjects in which an examination has been passed for admission to the school. No additional or supplementary certificate will be considered after the first college term.

Notebooks in general need not be submitted and should not be sent unless they are in individual cases specifically requested by the Director of Admissions.

Subjects in which work has been done privately outside of the regular school curriculum, even if under the direction of teachers in the school, should not be included in the certificate. Work done at any other time than from September to June should not be included in the certificate. Certificates of postgraduate work must show that the student has been graduated from a school and that a normal schedule has been carried for at least a half-year.

IV. THE SEPTEMBER

TESTS

Candidates for admission in any year who have not completed all entrance requirements in (I) the April or June Tests of the College Board, or in (II) the Regents Examinations of New York State, or by (III) a School Certificate, may, on permission from the Office of Admissions, write certain Tests in September prepared by the College Entrance Examination Board.

Applications for tests in September, 1942, should be made to the office of the College Entrance Examination Board, 431 West 117th Street, New York City. Before applying to the Board for any of these tests, a candidate for admission to Cornell University should obtain instructions from the Office of Admissions at Ithaca, N. Y. The schedule for the September Tests of 1942 follows:

September

Mathematics Attainment Test.....	Thursday the 10th, 2 p.m.
Scholastic Aptitude Test.....	Wednesday the 9th, 9 a.m.
Achievement Tests.....	Wednesday the 9th, 2 p.m.

The Achievement Tests—of which a student may take not more than three on one afternoon—are in the following subjects:

Social Studies	Latin Reading	Chemistry
French Reading	Spanish Reading	Physics
German Reading	Biology	Spatial Relations

For a Bulletin of Information describing the Tests and listing the Examination Centers, write to
The College Entrance Examination Board
431 West 117th Street, New York City.

(For the schedule of the April and June Tests, see I, above.)

The Board will send to the candidate a bulletin of information containing a list of examination centers. The candidate, in his application to the Board, will designate the center at which he will appear for examination. Ithaca is one of the centers; the examinations will be held in Goldwin Smith Hall.

COLLEGE CREDIT

EXAMINATIONS Credit toward a degree for work done in a preparatory school, upon subjects (Nos. 1-18 inclusive) which may be offered for entrance to the University, will be given only to those students who, in addition to satisfying all entrance requirements, pass separate examinations in the subjects for which they seek college credit. These examinations will cover substantially the same ground as the University courses in the corresponding subjects. An applicant who desires a college credit examination of this kind must apply to the Office of Admissions as early as possible and in no case later than the day preceding the beginning of the entrance examinations, specifying which fifteen units he intends to offer in satisfaction of the entrance requirements, and upon what other entrance subjects he wishes to be examined for college credit.

In case he fails to satisfy the entrance requirements in any one or more of the subjects which he has offered for entrance, but passes the college credit examination in any other subject or subjects, he may use the latter for satisfying the entrance requirements, but in that case he cannot also receive college credit therefor.

A candidate using No. 19 of the list of University entrance subjects (see Table I, page 7) to make his fifteen units, may not apply for a college credit examination as described above.

The Student at Cornell University

MATRICULATION

As soon as the requirements for admission to the University are satisfied the Registrar informs the candidate of his permission to register, sending him a blank form to be filled out and presented at the designated place on the regular day of matriculation. This *registration permit* is ordinarily sent directly to the home address of the prospective student.

If the candidate is entitled to this registration permit but for any reason has not received it by registration day, he should go in person to the Office of Admissions and procure it.

The registration permit bears on its face all the necessary directions for the candidate's registration in the University.

With the student's matriculation he enters upon a period of personal responsibility greater in most instances than he has ever before been required to bear. He should recognize that the success of his university career depends in large measure upon his own purpose, his own industry, and his own determination to make good use of his opportunities. The University offers its instruction and the use of its equipment; its teachers and other officers are ready to help with their encouragement or advice; but, after all, the responsibility for success or failure must rest with the student himself.

In planning his work the new student should consult the *Announcement* of the college that he is entering. Some of the colleges publish handbooks of information for their students and a copy of any such handbook can be obtained at the college office. In any of the colleges as a rule the student entering the Freshman class has an appointed adviser, a member of the teaching staff. In the College of Arts and Sciences, where the new student has a comparatively wide range in his choice of courses of instruction, the adviser supervises the student's choice of elective studies and tries to help him plan his course of study wisely.

No college of the University undertakes to send parents or guardians regular reports of the progress and standing of its students. The University prefers to regard its students as persons who are here partly for the purpose of maturing their minds and learning ways of self-reliance.

COUNSELING

SERVICES Traditionally the policy of the University has been to expect students to take the largest possible measure of responsibility in their college work and in their other activities. At the same time it maintains services through which students may obtain information or guidance to the extent that they themselves desire it.

For the University as a whole, these services are directed by two Counselors of Students; the one primarily concerned with men students and their problems, the other primarily concerned with women students and their problems. The Counselors are available at all times for discussion of matters relating to campus life and student activities, for consideration of the student's financial needs, and for other personal consultation. The Counselor for men has an office at 201 Tower Road, and the Counselor for women at 1 Sage Avenue.

A special adviser for foreign students has an office at the Cornell Cosmopolitan Club, 301 Bryant Avenue, which has living and dining accommodations for a group of foreign and American students. It is suggested that foreign students write to him before they come to Ithaca, or call on him when they arrive here. He will be glad to meet them at the train, help them find suitable living quarters, either at the Club or elsewhere, and assist them with introductions.

In addition to the counseling services described above, a general office is maintained in each college to counsel students particularly on problems related to scholastic work.

ONE RULE OF

CONDUCT Cornell University's one rule governing the conduct of students is as follows: "A student is expected to show both within and without the University unfailing respect for order, morality, personal honor, and the rights of others." The authority to administer this rule and to impose penalties for its violation is vested in the University Committee on Student Conduct. The rule is construed as applicable at all times, in all places, to all students of the University. A student may at any time be removed from the University if, in the opinion of the Committee on Student Conduct, his presence is not conducive to the University's best interests.

AUTOMOBILES

Any student, unless he is a member of the Faculty or has the rank of instructor in Cornell University, who owns, main-

tains, or for his own benefit operates or has in charge a motor-driven vehicle in Tompkins County, the environment of Ithaca, is required each term to register the vehicle in person with the Campus Patrol and, unless it is owned by another member of his immediate family who is a resident of Tompkins County, to pay a registration fee of \$1 a term. (However, no student is exempt from paying the registration fee if he gets a parking permit.) He must present (a) written consent of his parent or guardian if he is under 21 years of age, (b) evidence that the vehicle may be legally driven in New York State, and (c) evidence that the operator may legally drive in New York State, and (d) evidence that the vehicle is effectively insured against public liability for personal injury and property damage at the standard minima of 5-10-5 while the student is registered and the vehicle is in his possession. This registration must be completed within the registration days at the beginning of the first term if the student is then subject to the rule. If he becomes subject to the rule after that time he has one week in which to comply with it. Late registration of a vehicle makes the student liable to a penalty of \$1.

Motorcycles must be registered but may not be used on the campus during class hours.

Parking on the campus by students during University hours is generally prohibited. Only in a special case may a student obtain a parking permit. The fee is \$2 a term. The parking of *trailers* on any part of the University's grounds or outlying farms or other properties is prohibited.

The rules are the same during the Summer Session, but the only fee is \$1 for a parking permit.

The student's registration in the University is held to constitute an agreement on his part that he will abide by its rules and regulations with regard to traffic and parking or suffer the penalty prescribed for any violation of them. All privileges under this head may be denied a student who is not in good standing.

ASSESSMENTS

Every student is held personally responsible for any injury done by him to any of the University's property. Assessments, charged to the student's account and payable at the Treasurer's office, are levied upon the student in certain circumstances, under the following rules:

A matriculated student desiring to register after the close of registration day shall first pay a fee of \$5. Students in the Graduate School are excepted.

A student desiring to file his registration of studies after the date set by his college for filing the same shall first pay a fee of \$2.

A student desiring to take an examination or other test for the removal of a term condition (including the making up of a mark of "absent" or "incomplete") shall first pay a fee of \$2 for each examination or other test.

A student desiring to make an appointment for the required medical examination or conference after twenty days from the last registration day of the term shall first pay a fee of \$2.

For reasons satisfactory to the proper authority any of the above-mentioned assessments (except that levied for examination or other test to remove a condition) may be waived in any individual case if the student's failure to comply with the regulation was due to ill health or to other reasons beyond his control. Application for such a waiver should be made to the Dean of the College enrolling the student or, in the case of the medical examination, to the chairman of the Faculty Committee on Hygiene and Preventive Medicine.

SOME COMMON

PRIVILEGES The student enrolled in any of the University's colleges or schools becomes a member of the University and entitled to share in certain privileges, beyond those which his college gives him, and in the use of certain common University buildings.

The University Library is one of the few largest collections of its kind in the country. A selection of the standard literature of many subjects is kept on the open shelves of the main reading room. In another room the student has free access to a reference library including encyclopedias, dictionaries, atlases, gazetteers, almanacs, bibliographies, and biographical collections. In still another room he will find the current periodicals of all sorts. If he wants to consult a book which is not on the open shelves he may have it brought from the stacks for his use in the main reading room. The privilege of taking books for home use is given to all students with only such restrictions as are necessary to safeguard the rights of all users.

Sage Chapel is open every day when the University is in session. A service is held every Sunday. An endowment by the late Dean Sage enables the University to invite eminent clergymen of various denominations to conduct these services. Students are welcomed by the churches of Ithaca.

Barnes Hall, a gift of the late Alfred Smith Barnes, is the home of the Cornell United Religious Work. That organization has permanent secretaries and associated with them are clergymen who represent the larger religious groups and who serve regularly as pastors of students. The hall contains a library and reading room, with a collection of books and periodicals in the fields of religion, social problems, and vocations.

Willard Straight Hall, a gift of Mrs. Leonard Elmhirst in memory of Willard Straight of the Class of 1900, was designed and built to serve as the students' social and recreational center. It contains rooms for reading, social meetings, and games, dining rooms, guests rooms, offices for student organizations, and a theater. It has a carefully

selected "browsing library" for the use of students. Another feature of the hall is a room devoted to music and art, where exhibitions of paintings and other works of art are held and which contains an excellent radio-amplified phonograph and comprehensive collection of records given by the Carnegie Corporation. All students are members of the Hall, paying a nominal fee for the use of its privileges.

Public Lectures under the University's auspices in the course of every year are numerous. Scholars, scientists, and public men from this country and foreign countries speak here by invitation. These lectures are endowed and are free to members of the university community. Annual courses of lectures are maintained by endowments given to the University by Goldwin Smith, Jacob H. Schiff, Hiram J. Messenger '80, and the late George Fisher Baker I. Numerous other public lectures are provided by chapters of scholarly and scientific societies.

Concerts and Recitals. The Department of Music manages every year a series of concerts given on the campus by symphony orchestras, members of the Metropolitan Opera Company, and other eminent musicians, and also sponsors a chamber music series. There are weekly recitals by members of the department and other professional musicians, including the university organist. There are two organs, the one in Sage Chapel and the other in Bailey Hall. Concerts are given by students' glee clubs, one of men and the other of women, and by a university orchestra. This orchestra has an endowment given in memory of Gerald Watson Hinkley of the Class of 1915.

The Student's Health

A NECESSARY

PRECAUTION

Before coming to the University the student should consult an eye specialist and have any defect of vision corrected. Unless he takes that precaution he may begin his work under a disadvantage and run the risk of failure. The large amount of reading that is required puts a strain on farsighted or otherwise imperfect eyes. Such a weakness, unless discovered and remedied before the student begins his work, may delay his progress and impair his health.

MEDICAL

CARE

In the interest of the health of its students, and for their medical care, the University maintains a medical staff, which is organized in several divisions. The staff in general has a twofold function, (1) medical examination and advising and (2) the direction of the Student Medical Clinic and of the Infirmary.

MEDICAL EXAMINATION

AND ADVISING

The medical examination and advising of students is done by the Director of Preventive Medicine and his staff, which includes both men and women physicians. They have offices in the Gymnasium for men and in Sage College for women. Every entering student is required to report at Barton Hall during the registration days of the first term and make an appointment for physical examination. There will be repeated examinations periodically if the first or any subsequent examination indicates their necessity. Any student found to be physically in need of corrective exercise is assigned by the Medical Adviser to the Department of Physical Education for that purpose. The members of the staff of the Department of Preventive Medicine and Hygiene keep regular office hours for their work of giving medical advice to students.

Members of the Senior Class are required to report to the Medical Adviser during the regular registration days of their last term of residence and make appointment for physical examination.

MEDICAL CLINIC

AND INFIRMARY

In case of illness or accident, students should report immediately to the Student Medical Clinic at 7 Central Avenue. On receipt of such a report the Clinic's physicians

ascertain whether the student's illness is of an ambulatory nature. If the illness proves to be of such nature, treatment is given at the Clinic. If not, the student is referred to the Infirmary for bed care.

Any student failing to report to the Student Medical Clinic as soon as possible any contagious or infectious disease will be regarded as guilty of a breach of discipline.

The University Infirmary occupies three large buildings situated about one mile from the campus. It is a modern hospital plant with a normal capacity of 90 beds. This number can be considerably increased in emergencies.

The Infirmary is open throughout the college year at all hours for the admission of ailing students and for such emergencies as need attention after the Clinic closes at night. The staff consists of Resident Physicians, Attending Physicians, Visiting Surgeons, and Consultants. All medical work in the Infirmary is under the supervision of the Physician-in-Chief, who is also Medical Director of the Student Medical Clinic.

During the academic year an Infirmary fee of \$7.50 a term is paid by all students. This fee covers treatment at the Student Medical Clinic for one term and hospital services in a ward at the Infirmary and medical care for a period not to exceed two weeks in any one academic year. It does not cover consultation fees, X-rays, visiting surgical care, unusual medication, or special nursing fees. For ordinary services beyond the period of two weeks, a per-diem charge of \$2 is made for a ward bed and \$3 for a private room. If a student, while in the Infirmary, wishes to obtain the attendance of a private physician from the visiting staff, the student is at liberty to do so. Any student may also receive medical care from a private physician of the city of Ithaca rather than consult the Clinic. In either case this service is not included in the Infirmary fee.

The consent of a parent or guardian is required before an operation is performed in the Infirmary. In emergency cases, where the parent, guardian, or nearest relative can not be reached, the Clinical Director will authorize the operation by a visiting surgeon after consultation.

EXCUSES

Students who are absent from classes because of illness will present their explanations directly to their instructors or to the dean's office. Excuses are not issued by the Clinic physicians or the Medical Advisers. The instructors of a student who is behind in his work because of illness consult with the Medical Adviser concerning the student's loss of time by illness. There is complete co-operation be-

tween the Medical Adviser's office and the academic offices of the campus which assures any student consideration if there is lost work to be made up after illness.

A student may at any time be required to withdraw from the University if, in the opinion of the University authorities, the condition of his health is such that it might be unwise for him to remain.

LECTURES ON

HYGIENE All first-year students of all the colleges at Ithaca are required to attend lecture-recitations on Hygiene and Preventive Medicine given once a week throughout the college year. These requirements must be fulfilled within the two semesters of the Freshman year. In case the student fails to take and complete the work in the semesters specified, he will not be permitted to register again in the University without the consent of the University Faculty.

MILITARY

SCIENCE *Basic Course:* Every male student who is a candidate for a baccalaureate degree and is required to take five, six, seven, eight, or more terms in residence must, in addition to the scholastic requirements for the degree, take one, two, three, or four terms, respectively, of three hours a week, in the Department of Military Science and Tactics. Exceptions to this rule are made in the cases of (a) students in the Law School, (b) students holding a baccalaureate degree of an approved college, (c) students who neither are American citizens nor have taken out their first papers, and (d) students physically unfit. The requirements in Military Science and Tactics must be completed within the four semesters of the Freshman and Sophomore years. They must not be postponed. In case the student fails to take and complete the work in the semesters specified he will not be permitted to register again in the University without the consent of the University Faculty.

Advanced Course: An elective course that consists of the last two years in the Department of Military Science and Tactics, corresponding to the Junior and Senior years of the academic department. Students who successfully complete the Basic Course may apply for enrollment in the Advanced Course. When a student applies for the Advanced Course, credit may be given toward completion of the Basic Course R.O.T.C. for training received at an educational institution having a commissioned officer of the Regular Army detailed as Professor of Military Science and Tactics.

A student once admitted to the Advanced Course contracts to complete the course of training or continue therein as long as he remains a student at Cornell University. Should he fail to continue the prescribed course, he may be required to refund to the Government any sums previously paid to him as commutation of subsistence. Eligible candidates should consult the *Announcement of the Department of Military Science and Tactics*.

Students who are officially relieved of the requirement in Military Science and Tactics are subject to the requirement of an equivalent period of work in the Department of Physical Education. The period may be extended at the discretion of the Medical Adviser. Freshmen and Sophomores may be required in exceptional cases of physical defect to take, instead of Military Science and Tactics, corrective exercises in the Department of Physical Education as prescribed by the Medical Adviser. Juniors and Seniors are relieved of all required physical exercises provided their periodical medical examinations show that they have kept themselves in satisfactory physical condition. Otherwise they may be required to take or continue corrective exercises.

REQUIREMENT

FOR WOMEN

Every woman student who is a candidate for a baccalaureate degree and is required to take five, six, seven, eight, or more terms in residence must, in addition to the scholastic requirements for the degree, take one, two, three, or four terms, respectively, of three hours a week, in the Department of Physical Education. The period of the requirement may be extended at the discretion of the Medical Adviser. The requirements in Physical Education must be completed within the four semesters of the Freshman and Sophomore years. They must not be postponed. In case the student fails to take and complete the work in the semesters specified she will not be permitted to register again in the University without the consent of the University Faculty.

Freshmen and Sophomores may be required in exceptional cases of physical defect to take, instead of the instruction ordinarily given by the Department of Physical Education, corrective exercises in that department as prescribed by the Medical Adviser. Juniors and Seniors are relieved of all required physical exercises provided their periodical medical examinations show that they have kept themselves in satisfactory physical condition. Otherwise they may be required to take or continue corrective exercises.

The Student's Expenses

TUITION

FEE For instruction during the year, the University charges tuition as follows: \$200 a 15-week term in the Colleges of Arts and Sciences, Architecture, Engineering, Law, and in the course in Hotel Administration; \$100 a term in the Colleges of Veterinary Medicine*, Agriculture*, and Home Economics*; \$100 a term in the Graduate School. In the Medical College the tuition is \$200 for an 11-week term.

For each Summer Session in all schools and colleges the tuition fee is sixty dollars.

For the Winter Courses in Agriculture the tuition fee is twenty-five dollars.

For unit courses of instruction of less than six weeks in Agriculture or Home Economics, including Hotel Administration, tuition is charged at the rate of eleven dollars for each week or part of a week.

HOW PAYABLE

In the Medical College the tuition fee is payable in full at the beginning of the academic year. In the Summer Session and in the Winter Courses in Agriculture the tuition fee is payable in full upon registration. In all cases the payment due at any time becomes a liability at once when the student registers.

*EXEMPTION FROM

TUITION FEE Students pursuing full, special, or short courses in the New York State Veterinary College, the New York State College of Agriculture, or the New York State College of Home Economics (except the Course in Hotel Administration, and except all students registered in the Graduate School) who at the time of their admission to any of the said colleges are and for at least twelve months prior thereto have been *bona fide* residents of the State of New York are exempt from the payment of tuition fees; provided, however, that no student shall be allowed to transfer from any such course to another course wherein a tuition fee is charged without first paying the difference in tuition fees for the hours of credit that will be allowed in the latter course.

Under certain conditions (see the *Announcement of the Graduate School*) free tuition is granted to members of the instructing staff who are registered in the Graduate School.

REFUND OF TUITION TO

DRAFTED STUDENTS Students who enter the Armed Forces of the National Government in the academic year 1942-43 at such a time that they can not receive any academic credit for the term in which they enter the service will be entitled, under an act of the Board of Trustees, to a refund in full of the tuition paid for that term. If some academic credits are granted and some are not, tuition paid for the term will be refunded in an amount proportional to the credits not granted.

OTHER

FEES For certain services or privileges which the student enjoys the University charges fees over and above those charged for tuition. Some of them, as should be noted in the following list, are required to be paid by all students:

A Matriculation and Examination Book Fee of \$11 is required of every student upon entrance to the University. This fee must be paid at the time of registration. A new student who has made the required deposit of \$25 with the Treasurer does not make an additional payment of the matriculation fee, because the Treasurer draws on the deposit for this fee.

An Infirmary Fee of \$7.50 a term is required, at the beginning of each term, of every student. For a statement of the privileges given in return for this fee, see what is said about the Student Clinic and Infirmary on page 26. The Infirmary fee is not required of students registered in the Medical College in New York City. For students in the Winter Courses in Agriculture the Infirmary fee is \$5.

A Willard Straight Hall Membership Fee of \$5 a term is required, at the beginning of each term, of every student. Its payment entitles the student to share in the common privileges afforded by the operation of Willard Straight Hall, subject to regulations approved by the Board of Managers of the Hall. A fee of \$5 a term is required of all graduate students. The use of the Hall is restricted to those who have paid the membership fee.

A Physical Recreation Fee of \$4 is required at the beginning of each term of every undergraduate. Its payment entitles the student, either to the use of the Gymnasium and the University playgrounds and to the use of a locker, with bathing facilities and towels, in the Gymnasium, Barton Hall, or the Schoellkopf Memorial Building, or else to the use of the women's gymnasium, recreation rooms, and playgrounds, and to the use of a locker if that is necessary.

A Graduation Fee is required, at least ten days before the degree is to be conferred, of every candidate for a degree. For a first or baccalaureate degree the fee is \$10; for an advanced degree it is \$20, plus a \$10 thesis fee if the degree is Doctor of Philosophy. The fee will be returned if the degree is not conferred.

Automobile Registration and Parking. See Automobile Regulations, above.

LABORATORY

FEES In courses of study that require work in laboratory, shop, or drafting room, or field work, a fee is charged to cover the cost of material, etc., used by the student. In some cases

the amount of the fee depends upon the character of the work, and in other cases the fee is a fixed charge, as follows:

Every student registered in the *College of Engineering* is required to pay a laboratory fee, at the following term rates: Freshmen in Civil Engineering and all students in Mechanical Engineering and Electrical Engineering, \$12.50; students in the last three years of the course in Chemical Engineering, \$12.50; Sophomores, Juniors, and Seniors in Civil Engineering, \$4. Students not registered in the College of Engineering but taking work in the shops are required to pay a laboratory fee at the rate of \$3.50 a record hour. (A student who has taken, while in a non-engineering college of the University, part of the work required for an engineering degree is required, before receiving the technical degree, to pay to the Treasurer such amount as would have been due if he had taken all such work while registered in the College of Engineering.)

Every student registered in the *College of Architecture* is required to pay, at the beginning of each term, a laboratory fee of \$10. Students not registered in the College of Architecture are required to pay \$1 a credit hour each term, with a maximum fee in any case of \$10 a term.

DEPOSITS

In some courses, particularly in Chemical Engineering and the Chemistry courses of the College of Arts and Sciences, the student is required to make in advance at the Treasurer's office a deposit of money to cover the cost of material to be used and supplies to be consumed by him in the course of the term. Accounts are kept and charges are entered against the deposit. At the end of the term any balance remaining of the deposit is returned to the student. Every student registered in General Chemistry is required to deposit \$11 at the beginning of each term. A fee is also charged against the Chemistry deposit proportionate to the number of hours spent in the laboratory work. The advanced student of Chemistry should be prepared, if he takes several courses of instruction at the same time, to deposit as much as \$60 or \$70 for a single term.

R.O.T.C. Uniform Deposit of \$20. Every student enrolled for the Basic Course of instruction in Military Science and Tactics is required, immediately upon registration at the beginning of his Freshman year, to deposit \$20 at the Treasurer's office for the purchase of his military uniform. An immediate deposit is required because enrollment in the Department of Military Science and Tactics takes place at once. Most of the amount of the student's deposit is returned to him as earned uniform allowance upon his completion of the two-year Basic Course.

ADMINISTRATION

FEES

An administration fee of \$5 is required to be paid at the beginning of each term by every student enrolled in the College of Agriculture, the College of Home Economics, the Veterinary College, or the Course in Hotel Administration.

An administration fee of \$12.50 is required to be paid at the beginning of each term by every student enrolled in the Graduate School.

PAYMENT OF
CHARGES

The Registrar issues to every student at the beginning of every session a registration form consisting of a strip of perforated coupons. One pair of these coupons serves as bill and receipt for one term. The student enters on the bill, item by item, the amounts due for his tuition, other fees, and deposits. He enters also any laboratory fees according to the corresponding charges indicated on his departmental laboratory card or cards. When he pays his bill at the cashier's window in the Treasurer's office he presents the pair of coupons and the receipt is returned to him. That receipt will serve as his registration certificate and should be preserved with care. The Treasurer does not issue term bills. Since there are penalties incurred by tardy payments of fees (see below), it is important that all charges be paid within the prescribed time.

CHECKS AND
DRAFTS

The Treasurer of the University accepts checks in settlement of charges payable at his office, but a rule of the Board of Trustees forbids him to cash any credit instrument, even to the extent of accepting a check or draft in amount greater than the sum due and returning the excess in cash. Students are therefore advised to open an account in an Ithaca bank as soon as they arrive in town, or else to provide themselves with travelers' checks, drafts on New York City banks, money orders, or other form of credit instrument such as a bank will cash in the ordinary course of business.

RULES OF

PAYMENT Tuition and other fees become due when the student registers. The University allows twenty days of grace after the last registration day of each term of the regular session, and five days of grace after the first registration day of the Winter Courses and the Summer Session. The last day of grace is generally printed on the registration coupon which the student is required to present at the Treasurer's office.

Any student, undergraduate or graduate, except as hereinafter provided, who fails to pay his tuition fee, other fees, and other indebtedness, or if entitled to free tuition fails to claim the same at the Treasurer's office and pay his other fees within the time prescribed is thereby dropped from the University. The Treasurer may grant an extension of time for the completion of payments when in his judgment the circumstances in a particular case so warrant. A fee of \$2 will be charged for such an extension. A financial reinstatement fee of \$5 will be charged to the account of any student who is permitted to continue or return to classes after being dropped from the University for default in payment. For reasons satisfactory to the Treasurer and the Registrar, which must be presented in writing, the \$5 reinstatement fee may be waived in any individual case.

If a student withdraws from any of the colleges of the University at Ithaca the Treasurer may refund a part of the tuition fee or cancel a part of the obligation that the student has incurred for tuition, provided the reason for the withdrawal be stated in writing and be satisfactory to the Treasurer and the Registrar. In any such case the amount that the student owes the University for tuition is computed in the appropriate one of the following ways: For any of the short summer courses, 20 per cent of the term's tuition for each week or fraction of a week between the first day upon which the student receives instruction and the date of his certificate of withdrawal as issued by his college; for the regular first or second term of the University at Ithaca, or for the Winter Courses in Agriculture, 10 per cent of the term's tuition for each week or fraction of a week between the first day upon which the student receives instruction and the date of his certificate of withdrawal as issued by his college. In the Medical College in New York City there is no provision for refunding or rebating the fees on account of a student's withdrawal.

Students registering at any time during the last ten weeks of either the first or the second term are required to pay tuition at the rate of 10 per cent of the regular tuition of the term for each

week or fraction of a week between the day of registration and the last examination day of the term. Students registering at any time during the last five weeks in the Summer Session are required to pay tuition at the rate of 20 per cent of the term's tuition for each week or fraction of a week between the day of registration and the last examination day of the term.

Senior students in the State College of Agriculture or the State College of Home Economics (except the Course in Hotel Administration) who wish to take courses of instruction in any of the endowed colleges, in excess of the number of free hours allowed them by the rules of the State college and in excess of the number of hours required for graduation, may be allowed to do so upon payment for the additional hours of instruction at the rate of tuition in the college in which the instruction is to be given.

The amount, time, and manner of payment of any tuition or other fee may be changed by the Board of Trustees and such a change may take effect at any time without previous notice.

GRADUATE

STUDENTS Students of the Graduate School are required to register both in the Office of the Graduate School and in the Office of the Registrar of the University, and on the regular registration days of each term unless special permission for later registration has been granted by the Dean.

Except as otherwise provided, students of the Graduate School are required to pay a tuition fee of \$100 each term and an administration fee of \$12.50 for each term.

Graduate Students who attend classes in any of the summer sessions must register both in the Graduate School and in the Summer Session. The following tuition fees must be paid by graduate students so registered: for any session of either 5 or 6 weeks, \$60; for a period of 11 weeks, \$80; for a full term, \$100. A graduate student who is registered in both the Summer Session and the Graduate School must pay the following fees, which represent the combined Health and Infirmary Fee and Willard Straight Hall Membership Fee: for any session of either 5 or 6 weeks, \$4.50; for a period of 11 weeks, \$9. Please note that this paragraph refers only to fees for double registration in the Graduate School and the Summer Session.

No student shall receive the master's degree who has not paid tuition equivalent at least to one academic year, during the academic year, or summer courses, or both; and no one shall receive the doctor's degree who has not paid tuition for the equivalent of at least three academic years, unless one or more of the years spent in study for the doctor's degree shall have been spent in approved graduate study at another university—but in any event at least the equivalent of one academic year's tuition must be paid while in graduate study at the University.

Before beginning work for the summer under Personal Direction students are required to register with the Registrar as well as in the Graduate School.

Students registered under Personal Direction, if they desire residence credit for their work, must pay a tuition fee proportionate to the ratio which the credit desired bears to an entire term. Such students must pay the Administration Fee of \$12.50, the Willard Straight Hall Membership Fee of \$5, and the Health and Infirmary Fee of \$7.50, provided, however, that one half of these fees will be remitted if the registration is for a period not exceeding eight weeks.

On registering for the first time in the Graduate School a student who has not previously matriculated in Cornell University is required to pay a matriculation fee of \$10 and an examination book fee of \$1 in addition to any other fees that are due. These fees are not subject to refund.

LIVING

COSTS In a large body of students there is almost as wide a range of expenditure as if they were all living at home, and a single general estimate of the cost of attending college can be true for hardly more than a middling fraction of them. Inquiries about college expenses are of two kinds. One person wishes to know the minimum cost. Another asks how much to allow for a comfortable scale of living. An estimate intended to inform and warn the one person may misguide the other. For young men at Cornell, who lodge where they will and get their meals according to their means and convenience, there is little approximation to a uniform scale. For young

women, living in supervised halls, there is at least a uniform charge for room, board, and laundry.

COSTS FOR

MEN

The average student's allowance for the necessary expenses of the Freshman year (September to June) at Ithaca, over and above the amount of the tuition fee, ought to be at least \$800. That is the sum of \$550 for room and board; \$150 for fees (including laboratory fee and deposits), books, instruments, stationery, and other supplies; \$50 for laundry, and \$50 for miscellaneous personal expenses. That is enough in most cases for a decent living but hardly more than enough even for the prudent. The Counselor of Students will send anyone who asks for it a classified statement of costs, high and low as well as average, in the form of a printed folder entitled *A Student's Budget of Expenses*. The folder contains information and advice intended to help in the making out of a monthly budget of the young man's allowance and expenses throughout the Freshman year.

The amount to be allowed any student for personal expenses can be determined only by somebody who knows his means and his habit of living. Parents and guardians are cautioned against providing their sons and wards with an excessive amount of pocket money. It is one thing to furnish a student with money enough to cover his legitimate expenses, which can all be reckoned up and accounted for. It is quite another thing to give him an immoderate allowance for spending without thought. Overindulgence in that respect has been the means of undoing many a young man's university career.

The University has ten residential halls and four houses which altogether provide room for about 700 men. The rents range from \$3 to \$7 a week. One-fourth of all the rooms are available to new students each year and are assigned by lot on July 1 to applicants who have been admitted to the University. Particulars, including floor plans and prices, are given in a pamphlet which can be obtained from the Manager of Residential Halls.

Many private lodging houses near the University offer furnished rooms, with heat and light, at rates ranging from \$3 to \$7 a week for a single room. Before he rents a room in a private house, a student should make sure, by a personal inspection, that the sanitary arrangements of the house are good, and he should especially insist on a good fire escape. The University publishes a list of lodging houses which have been inspected and found to be satisfactory in the above respects; the list is ready for distribution on August 15. New students, if they have not already engaged rooms, are advised to come to Ithaca for that purpose a few days before the beginning of registration in September.

The University does not conduct dining halls for its men students. There is, however, a large cafeteria in Willard Straight Hall and another at the College of Home Economics. Near the University are many restaurants and cafeterias which cater mainly to students. The boarding house is extinct here, though the fraternity house takes its place in serving the needs of many undergraduates.

COSTS FOR

WOMEN

The University provides furnished rooms and board for women students in six large residential halls—Sage College, Prudence Risley Hall, and four units of the Balch Halls—and their accommodations are supplemented by those of several adjacent cottages. In any of these halls the charge for board, laundry, and rent of a furnished room, with heat and light, is \$275 a term. Prospective students are urged to make early arrangements for their accommodations by applying to the Manager of Residential Halls. Rooms are assigned to September entrants in order of application on August 25.

A young woman's allowance for the necessary expenses of the Freshman year (September to June), over and above the amount of the tuition fee and the residential charge, ought to be at least \$150 to cover the cost of fees (including laboratory fees and deposits), books, instruments, stationery, and other supplies.

All women students are subject to the supervision of the Counselor for women. No one of them may live or board outside the University's halls or cottages except with her approval and then only in a house which she has approved and which is subject to her oversight. Young women who are to attend the University should write to the Counselor for women in good season about any arrangements in which they are likely to need guidance or help. She invites prospective students to enter into correspondence with her as early as they will. She will send to anyone who asks for it a copy of a printed circular of information about costs of living.

Means of Financial Aid

AID FOR NEW STUDENTS

Cornell University's provision of financial help for new students is limited to certain scholarships which are awarded on the basis of competition and are restricted to students entering the Freshman class. They consist of 23 University Undergraduate Scholarships, 150 State Cornell Scholarships for residents of New York State, 34 or more John McMullen Regional and Industrial Scholarships in the College of Engineering, nine first-year scholarships in the College of Architecture, and a few others most of which are restricted to residents of certain localities. All are listed and the conditions of their award are defined below. Except for them the University makes no provision for excusing a student from the payment of any of the tuition or other fees regularly charged in the college or school that he is enrolled in.

UNDERGRADUATE SCHOLARSHIPS

The University Faculty annually awards a limited number of scholarships to members of the incoming Freshman class who attain high standing in a special competitive examination held in Ithaca early in the fourth week of September, beginning on the second day of registration. Some of these scholarships are worth more than others, and they are all awarded according to the relative rank which the successful competitors attain in the examination, the more valuable to the more successful. The awards are ordinarily announced about the middle of October in any year. A competitor may win one scholarship of one of these three groups:

(a) Five George W. Lefevre Scholarships, each having an annual value of \$400 and being tenable each year so long as the holder remains in good standing in the University as undergraduate or graduate student; only those candidates are eligible for Lefevre Scholarships who furnish proof of their financial need.

(b) Two Eudorus C. Kenney Scholarships (if they are to be awarded by the Faculty Committee on Scholarships under the provision outlined on page 43), each continuing for four years and having an annual value of \$250.

(c) Eighteen University Undergraduate Scholarships, each continuing for two years and having an annual value of \$200.

In order to enter the examination a candidate for a scholarship of any of these three groups must show the examiner a permit issued by the Registrar of the University. The Registrar will grant such a per-

mit on application by mail provided the applicant has been admitted as a Freshman to one of the colleges of the University and is otherwise eligible and provided the application is accompanied by a statement of the name of the school at which the candidate was prepared, the name of the principal of the school, and the name of the course which the student proposes to enter. Address The Registrar, Morrill Hall, Ithaca, N. Y.

The scholarships are awarded on the basis of examinations in three subjects, namely, (1) English, (2) Mathematics, and (3) one foreign language, either Greek, Latin, French, German, Spanish, or Italian.

The examination in English will be designed to test (a) the student's knowledge of some pieces of literature (novels, plays, essays, poems, and biographies) which he has read; (b) his ability to exhibit some degree of judgment of the value to him of this reading; (c) his ability to read with understanding passages of prose or poetry with which he is presumably unfamiliar; and (d) his ability to write throughout the examination with correctness, showing power of expression and skill in developing and organizing material.

The examination in Mathematics covers Elementary Algebra, Intermediate Algebra, and Plane Geometry.

In the foreign language, whichever the candidate elects to be examined in, the examination assumes that the candidate has studied the subject for three years.

The award of scholarships of these three groups is subject to the following rules:

All persons shall be debarred from the competition who have taken part in any previous competition for these scholarships or have been previously registered in this University (including the Summer Session) or in any other university or college.

Before scholarships are awarded every candidate must indicate the college and, if several courses of study with diverse entrance requirements are given in that college, then also the course in which he intends to register. In order to hold a scholarship, if it be awarded to him, he must register in that college or course, and he will forfeit the right to the scholarship if he transfers to any other college or course unless he can show by the University's records that when he was admitted to the University he had satisfied all the entrance requirements for the college or course to which he transfers.

No scholarship will be awarded to any candidate who is reported markedly deficient in any subject in which he is examined, and the right is reserved to award fewer than eighteen University Undergraduate Scholarships in the absence of a sufficient number of duly qualified candidates.

The University Faculty's committee on scholarships may, after an opportunity has been given the student to explain his unsatisfactory record, vacate any scholarship for negligence, for failure to maintain a high standard of scholarship, or for conduct of any kind that is unbecoming in a student holding such a scholarship.

Whenever any of these scholarships shall for any reason become vacant the vacancy shall be filled as the Faculty shall determine.

The moneys due on the Lefevre Scholarships, the Kenney Scholarships, and the University Undergraduate Scholarships are paid at the Treasurer's office in two equal installments in the early part of each term, but no scholar is entitled to receive his semi-annual payment until the Scholarship Committee has examined and approved his record for the preceding term and until the Chairman of the Scholarship Committee has certified that the record is satisfactory.

Possession of a New York State scholarship does not impair the holder's eligibility to any scholarship of these three groups.

The award of the Lefevre Scholarships is governed by a clause of the donor's will which limits eligibility to those students of Cornell University "who shall be in their first year's attendance in the Freshman class in the said University and shall be regularly enrolled as such students therein at the beginning of any college year and who shall be in financial need and shall satisfy said University that their parents cannot contribute the amount required to meet the necessary University charges and necessary living expenses at said University."

THE FEDERATION

SCHOLARSHIPS The Federation of Cornell Women's Clubs receives applications for the following scholarships through their scholarship chairman, Mrs. R. C. Osborn, 303 N. Aurora Street, Ithaca, N. Y.:

Two scholarships of \$400, or four of \$200 each, for women matriculating in or registered in any college of the University. Awarded on the basis of ability and academic standing, character, physical and mental health, and financial need. Granted for one year only, but recipients may reapply.

The Mabel Esty Rose Scholarship. \$400 for the year 1942-43. Awarded for one year only, with preference to juniors and seniors of direct New England descent, on the basis of character, scholarship, and need.

An anonymous scholarship of \$100 for a senior woman majoring in science, with the intention of continuing in the scientific field. Preference given to women who have been largely self-supporting.

STATE CORNELL

SCHOLARSHIPS Under Section 1037 of the New York State Education Law of 1910, as amended in 1932, the Commissioner of Education awards annually, after a competitive examination, to pupils of the common schools and academies of the State, a number of scholarships in Cornell University equal to the number of assembly districts in the State, at present 150. Each scholarship entitles the holder to a reduction of \$200 from the regular rate of tuition annually for eight terms while receiving instruction in the prescribed subjects in any college of Cornell University.

The holder of one of these scholarships, in order to enjoy its benefits, must have satisfied the regular requirements for admission to one of the colleges of the University and must have registered as a student of that college before the close of the regular registration day for new students in the September next after the examination. After the holder is duly registered as a student of the University, and not until then, he comes into possession of the scholarship. His tenure of it thereafter is subject to the provisions of Section 1037, to the Commissioner's regulations, and to the University's usual examinations and rules.

Any person wishing to compete for one of these scholarships should apply to the principal of his school, or if necessary to the State Commissioner of Education at Albany, for information about eligibility and the time and character of the competition.

A State tuition scholar in good standing may, after obtaining leave of absence from his college, obtain from the President of the University, upon written application to the Secretary of the University, leave to retain his scholarship during absence either for the purpose of earning funds with which to continue his studies or on account of illness. In such circumstances the President of the University may extend the period of the scholarship so as to afford the holder not more than six years from the commencement thereof for the completion of his course at the University. A scholar's absence from the University without leave, or tardiness in registering at the beginning of any term, is a delinquency that may involve the forfeiture of the scholarship. The Secretary of the University is required to inform the Commissioner of Education promptly of the vacancy of any scholarship, and the Commissioner has authority to fill a vacancy by appointing the person next on the list of candidates.

STATE UNIVERSITY

SCHOLARSHIPS

Under Chapter 292 of the Laws of 1913, as amended by Chapter 502, Laws of 1920, and Chapter 130, Laws of 1924, the State of New York maintains scholarships five of which are awarded each county annually for each assembly district therein. Each of these scholarships entitles the holder to \$100 for each year in which he is in attendance upon an approved college in this State during a period of four years. These are called the State University Scholarships. At Cornell they are commonly known as the State cash scholarships, to distinguish them from the State tuition scholarships in this University. They are awarded by the State Commissioner of Education at Albany, to whom application should be made for any information about the conditions of award, or for any information about the rules of administration. The University has no part in administering these scholarships except to keep the Commissioner informed of the attendance or absence of those scholars who are enrolled here. If a State University Scholar is absent from the University either with or without leave the Secretary of the University is required to inform the Commissioner of the absence promptly and only the Commissioner has authority to confirm a leave of absence with respect to the tenure of the scholarship. Every State University scholar enrolled for the Freshman year at the University should go to the Secretary's office, Morrill Hall, between October 15 and November 1, and receive his formal certificate of appointment issued by the Commissioner.]

DEPARTMENTAL

AND REGIONAL

Other scholarships to which new students are eligible, but which are generally limited to those entering specified departments of the University or are restricted by the wishes of their donors to residents of specified localities, are the following:

In the College of Engineering. (a) Thirty or more John McMullen Regional Scholarships are awarded annually to selected students entering the College of Engineering. Entering male students who have attended secondary schools outside the State of New York (or who are ineligible for the Cornell Tuition Scholarships awarded by the State of New York) are eligible to compete. These scholarships have variable stipends up to \$400 a year and may be held throughout an undergraduate course of study provided the recipient maintains a satisfactory academic record. Applicants are required to take the scholastic aptitude test of the College Entrance Examination Board. Inquiries should be addressed to the Committee on Scholarships, College of Engineering, not later than January so that formal application may be filed before March 1. (b) Four *John McMullen Industrial Scholarships* in Engineering are awarded each year to graduates of secondary schools who have spent some time in industry and have had apprentice training, preferably in a formal course given by an industrial concern. Candidates must be sponsored by responsible officers of the companies by which they have been employed. Each scholarship has a value of \$400 a year, and may be held throughout an undergraduate course of study provided the recipient maintains a satisfactory academic record. Inquiries should be addressed to the Committee on Scholarships of the

College of Engineering, preferably not later than February, so that formal applications may be filed with the College before April 1.

In the College of Architecture nine first-year tuition scholarships of \$200 each may be awarded, primarily on account of financial need, to students registered for their first year. The same college has three scholarships of \$300 each which may be awarded annually to graduates of four-year schools, with any baccalaureate degree, who are not eligible for admission to the Graduate School. These scholarships are applied to the payment of tuition, one-half of the annual stipend to the tuition of each term. Applications are received by the dean of the college.

Eudorus C. Kenney Scholarships. Under the will of Eudorus C. Kenney of the class of 1882 his residuary estate was left to Cornell University, the net income to be used for the establishment of scholarships. The amount of the foundation is about \$53,000. Two scholarships of the annual value of \$250 each are awarded each year for a period of four years to applicants entering the University who are *bona fide* residents of the town of Truxton, Cortland County, New York, and are recommended by a committee consisting of the principal of the Truxton Public School, the superintendent of schools for the district including Truxton, and the supervisor for the town of Truxton, the recommendation to be made and certified to the President of the University on or before September 15 of each year. The President awards the scholarships. In case of a vacancy in any scholarship the value of the scholarship may be awarded by the Faculty Committee on Scholarships in such manner as it may deem best.

Albert C. Murphy Scholarship. A scholarship of amount sufficient to defray the cost of tuition and living expenses at Cornell University is offered annually for competition and award to a young man coming from the City of East St. Louis, Illinois, and entering the Freshman class. It is continued year by year until graduation if the holder maintains a satisfactory standing and needs the financial aid. Candidates should apply to the Counselor for men for instruction before March 1 of the year in which they become ready for admission.

Alexander and Mary E. Saunders Scholarship. A four-year undergraduate scholarship in Cornell University awarded from time to time by the superintendent, principal, and teachers of the Yonkers High School, and paying the income of a fund of \$12,500.

Sylvester Edick Shaw Scholarship. The income of a fund of \$4,000 provides a scholarship for a student pursuing the course in Mechanical or Electrical Engineering, to be designated from time to time by the Cornell alumni resident in Niagara County or, in their default, by the principal of the Lockport High School.

James H. Manning Scholarship. The income of a fund of \$10,000 provides a scholarship in Cornell University for a student to be nominated once every four years, or more often if there is a vacancy, from the several high schools of Albany in rotation, and to be chosen by a committee consisting of the president of the board of education, the superintendent of schools, and the principal of the school from which the selection is made.

Alexis Cruttenden Medical Scholarship. The income of a fund of \$5,000, awarded annually by the Faculty's committee on Scholarships, preference being given, first to descendants of Alexis Henry Cruttenden, M.D., of Bath; second to graduates of Haverling High School of Bath who are residents of the town of Bath and propose to take up the study of medicine in Cornell University; third to graduates of that school who are residents of the town of Bath.

Edwin G. Vail Fund. A fund of \$10,000 of which the income is expended in the aid of needy students from Dutchess County who succeed in winning State scholarships in Cornell University. Administered by the Committee on Student Aid.

Charles F. Smith Fund. A fund of about \$5,300 of which the income is to be paid to a student or students from the town of Southold, Suffolk County, attending Cornell University. Administered by the Committee on Student Aid.

Thomas Lee Bland Scholarships in Hotel Administration. Income of a fund of \$10,000.

Mary Isabella Sherman Fund. A fund of \$4,000 providing for two scholarships available to graduates of the Ithaca High School to be selected by the superintendent and the faculty of the school.

D. A. R. Indian Scholarship. Established in the College of Home Economics by the New York State Conference, Daughters of the American Revolution, for the benefit of New York Indian students. Applications must be filed at the office of the secretary of the college before March 1.

Annie M. Hatch Indian Scholarship. Supported by an endowment of \$10,000, the income to be used for the payment of term bills and other college expenses of some New York State Indian in attendance at Cornell University. Administered by the Committee on Student Aid.

LaVerne Noyes Scholarships. Cornell University receives a limited annual allowance from the trustees of the estate of LaVerne Noyes, late of Chicago, to be used for the payment of tuition for needy descendants of veterans of the World War of 1917-18, under certain conditions prescribed by the trustees. Application should be made to the Counselor for men before March 15.

GRADUATE STUDENTS

In the Graduate School there are eighteen scholarships of the annual value of \$200 each and twenty-five fellowships of an annual value of from \$400 to \$1,000 each. Some of the fellows and graduate scholars are exempt from the tuition fee. There are also tuition scholarships and special fellowships. For information the *Announcement of the Graduate School* should be consulted.

Scholarships in the Law School and in the Medical College are described in their respective Announcements.

STUDENT

LOANS Most of the financial aid which the University is able to give undergraduate students is in the form of loans from the income of endowments which a standing Committee on Student Aid administers for the trustees. The benefits of these loan funds are reserved for students who have been in residence and in good standing at Cornell University for at least a year and preference is given to applicants of high scholastic standing who are within a year or two of graduation.

The University has two general funds which are used for loans to students. They are:

(1) The *F. W. Guiteau Student Loan Fund*, established by the will of Frederick William Guiteau and augmented by the will of his sister, Mrs. Nancy Guiteau Howe, both of Irvington-on-Hudson, the income of which is by the terms of the bequest available for loans to young men. Applications for loans from this fund are received by the Counselor for men.

(2) The *Women Students Loan Fund*, which is composed of a former general loan fund and an increment of \$7,000 given in 1913 by the late President Andrew D. White from funds which the late Trustee Andrew Carnegie had put at his disposal. It is supplemented by the *Hunter Loan Fund for Young Women*, a gift received by the will of the late Professor George W. Jones. The Counselor for women receives applications.

In considering an application the Committee on Student Aid takes account of the applicant's scholastic record, the extent of efforts to earn a part of what is needed, and the progress already made toward graduation. Loans are made primarily to assist students who would otherwise be unable to pay the tuition and other fees. No student should regard the loan fund as a normal or assured resource, and no student should enter upon a year at the University expecting to pay a part of the year's expenses with money yet to be borrowed. The use of the loan fund is a privilege reserved for the industrious student of proved worth and earning power whose means are so nearly exhausted and whose training is so nearly completed as to warrant going into debt in order to complete the training without delay. Money borrowed from any of the funds is to be repaid to the fund with interest at five per cent per annum.

There are other loan funds, some of which are administered in the offices of the several colleges and schools. They include the Theodore Gilbert Hubbard, the Ezra Pierce Reynolds, and the Grove Karl Gilbert funds; the Women's Guild fund for helping needy students in case of illness; the Chemical Engineering, Robert Critchlow Dewar, Martin J. Insull, John N. Ostrom, Lillian S. Mennen, Herman Diederichs, and Wurts Memorial funds for students of Engineering; the American Agriculturist Foundation loan fund for students of Agriculture or Home Economics; the M. Z. Baird fund in the College of Architecture; the Max Schling and New York Florists Club funds for students of floriculture; the Cornell Alumnae fund; the Walter P. Cooke and Cornell Law Association funds in the Law School; the Graduate loan fund; and the Agricultural Students loan fund.

GRANTS

IN AID On a limited scale financial aid is afforded students by means of gifts which, though often denominated scholarships, are more properly called grants because their primary

purposes is the relief of pecuniary need. These grants are drawn from the income of special funds, the gifts of persons who in many instances have specified to whom in general their benefits are to apply. These funds are listed here, separately from the scholarships already described above, because they are not as a rule available for aid to new students. Many of them are restricted to the students of certain colleges, are administered in those colleges, and are described in the Announcements of the colleges. In other cases funds have been put at the disposal of the Committee on Student Aid or the Counselor for women.

The list includes the John Knickerbacker fund, which supports a limited number of bursaries for young men of the Senior class; the C. Howell North fund; the Laura Osborn Memorial; the Francis Leon Chrisman fund; the George E. Best fund; the Florence Dearstyne fund; the Albert and Olive Jonas fund; the Willard Straight Memorial and S. K. Alfred Sze funds given and used for the benefit of needy Chinese students; the Red Cross Student Relief fund; the Mary Richardson Anthony scholarship for a student from the town of Springport, Cayuga County; the Edward Chandler Delano scholarships for students from Wayne County, and two funds administered by the Faculty's committee, namely, the two Dr. Louis Alexander Dreyfus scholarships, limited to members of the Junior and Senior classes from Richmond County, N. Y., or Sandusky County, Ohio, and the Dwight Memorial scholarship, limited to students from the town of Dryden or from Tompkins County.

In the College of Arts and Sciences are three George C. Boldt scholarships for young men of the Senior class, the Chester Buchanan Memorial scholarship for a young man of the Senior class whose major study is Geology, and the Cornelia L. Hall scholarship for a student from Tioga, Tompkins, or Chemung County.

The College of Engineering has four Redmond Stephen Colnon scholarships, three Otto M. Eidlitz scholarships, one scholarship each from the Joseph N. Evans, Carl Richard Gilbert, Frank William Padgham, Judson N. Smith, William Delmore Thompson, John Leisenring Wentz, and Fred Lewis Wilson funds, a considerable number of \$200 John McMullen scholarships for members of the Senior or Junior class, and the William C. Seidell fund for the purchase of books for students.

The College of Agriculture awards annually ten Charles H. Roberts scholarships. It administers the Hervey S. Hall scholarship for a student from the town of Spencer, the county of Tioga, or the State of New York. It shares with the College of Home Economics the income of the Robert M. Adams 4-H Memorial fund.

The College of Home Economics awards scholarships from the income of the Carrie Gardner Brigden, Grace Schermerhorn, Ruby Green Smith, and Martha Van Rensselaer—Home Bureau funds, and others supported by the Home Economics Club and the society of Omicron Nu. The department of Hotel Administration awards scholarships from the income of the Horwath & Horwath fund.

The director of the School of Education receives applications for the Edward A. Sheldon scholarship for a teacher or a young woman preparing to teach.

PRIZES

Various cash prizes are open to competition by students every year. A new student can learn about such opportunities by consulting the Announcement of the college that he is attending and by obtaining a copy of a pamphlet entitled *Prize Competitions*, which the Secretary of the University publishes.

EMPLOYMENT

IN ITHACA A good many students of Cornell University find means of earning a part of their living expenses by working on or off the campus during the school year. The University does not undertake to provide or to obtain employment for

them, but it maintains a bureau, the University Placement Bureau, in Willard Straight Hall, where men can obtain help in finding work. Women students in need of employment should consult the Counselor for women.

The National Youth Administration has been providing the means of employment on the campus for a limited number of students. The Placement Bureau in Willard Straight Hall receives applications for these NYA jobs.

A new student at Cornell University ought to have enough funds available to cover his expenses for the first year, for no student can be assured of employment that will provide him with board or room. In recent years there have not been enough jobs of that kind in Ithaca for all the students that were looking for work, and some Freshmen, out of funds and unable to find any employment, have given up their studies and gone home before the end of the first term. The University does what it can, through its Placement Bureau, to find work for such needy Freshmen, but it cannot provide steady jobs when there are none to be had. To be left without means of support in a university town is just as painful as in any other strange town, and that is why new students are warned against coming to Ithaca without enough funds for the first year.

The Freshman looking for steady employment starts with a disadvantage because older students have obtained most of the jobs that provide the means of earning board or room. In Ithaca, as elsewhere, employers prefer to hire persons whom they know, and working students commonly make arrangements in the spring for employment during the next school year.

The University's employment bureau does not control the employment of students by the University or by anybody else. It merely serves as an exchange, like any other bureau of the kind, listing situations that have been reported to it and advising applicants of any opportunities for work that it knows about. It cannot promise any student immediate or permanent employment.

A new student who must earn his board or room ought to be looking for a situation in September before registration begins, for such situations are generally filled by the time the University settles down to work. The director of the employment bureau will be glad to advise young men before they begin looking for a job. The applicant ought to bring with him recommendations from any former employers or from other persons who know him.

After the regular employers of student labor have hired what help they need, at the beginning of the school year, there remain only oc-

casional jobs, paying as a rule not more than forty cents an hour. As these jobs are much sought after by students who need to earn a little cash, they are a precarious means of livelihood for any student who must earn much of his subsistence.

Even if he can find opportunities of earning both board and room, a Freshman ought not to undertake so heavy a burden of work. His studies, which must be his major occupation, require from forty-five to forty-eight hours of his time every week, or two hours of study for every hour in the class-room. To earn one's board alone ordinarily requires three hours of work a day for seven days a week in dining-room or kitchen. More labor than that leaves too little time for exercise and recreation, to say nothing of sufficient sleep.

If the parents or other relatives of a student can possibly give him money enough for his expenses, they ought not to expect him to "work his way." It has been found that some parents or guardians believe that it is good for a young man to earn his board or his room at college. That is not true. Self-support is honorable if it is necessary, but it handicaps a student, taking time and energy that he might better be employing otherwise. Moreover, parents who needlessly require their son to earn his board are thereby depriving some needy student of his own means of livelihood at college.

After they learn their way about, resourceful students find a few special ways of earning a little money. The most successful are those who have some ingenuity of their own and who do not expect the employment bureau to do everything for them. A few upperclassmen of high attainments are regularly employed in several of the University's departments in various capacities. Competent members of the Senior class may even be appointed laboratory assistants, and the pay of an assistant is enough to set him free from less agreeable labor. These special opportunities are comparatively few in number and they generally call for particular aptitude or skill.

PLACEMENT

BUREAU For the benefit of its students and alumni the University maintains a service known as the Placement Bureau, operating throughout the year with an office in Willard Straight Hall. Its objects are to make available any vocational information that can be helpful to students in their choice of an occupation, to assist members of the graduating class in locating suitable employment, and to aid alumni who seek for any reason to obtain new situations.

CORNELL UNIVERSITY OFFICIAL PUBLICATION

This series of pamphlets is designed to give prospective students and other persons information about Cornell University. No charge is made for the pamphlet unless a price is indicated after its name in the list below. Requests for pamphlets should be addressed to the Secretary of the University at Ithaca. *Money orders should be made payable to CORNELL UNIVERSITY.*

The prospective student should have a copy of the

General Information Number

and a copy of one or more of the following Announcements:

Announcement of the Graduate School.

Announcement of the Medical College.

Announcement of the Law School.

Announcement of the College of Arts and Sciences.

Announcement of the College of Architecture.

Announcement of the College of Engineering.

Announcement of the New York State College of Agriculture.

Announcement of the Two-Year Courses in Agriculture.

Announcement of the Winter Courses in the College of Agriculture.

Announcement of the Farm Study Courses.

Annual Farm and Home Week.

Announcement of the New York State College of Home Economics.

Announcement of the Course in Hotel Administration.

Announcement of the School of Nutrition.

Announcement of the New York State Veterinary College.

Announcement of the School of Education.

Announcement of the Summer Session.

Annual Report of the President.

Special departmental announcements, a list of prizes, etc.

Directory of the University. Price, postpaid, 25 cents.

Correspondence regarding the Cornell University Official Publication should be addressed to

THE SECRETARY, CORNELL UNIVERSITY,
ITHACA, NEW YORK.

Cornell University

ADMISSION IN JUNE, 1943

Under the accelerated program of instruction now in effect, Cornell University will admit new students, both men and women, for a term beginning June 28, 1943. The Colleges of Arts and Sciences, Architecture, Engineering, Agriculture,* and Home Economics,† as well as the Law School and the Graduate School, will accept new students at that time. In all these divisions, a full term of instruction will be offered. This term is separate from the regular Summer Session, which will be held as usual. The Medical College and the Veterinary College are operating on other schedules, which appear in their respective Announcements.

Inquiries about entrance in June or in subsequent terms should be addressed to the Director of Admissions, Cornell University, Ithaca, New York. He will supply an application blank and full information about entrance requirements.

*While the College of Agriculture will consider applications for admission on June 28, it is expected that students of that college will in general be on farms during the summer and will delay their studies until the fall term.

†The College of Home Economics in 1943 will admit in June only (not in the Fall). Applications for Home Economics are due March 1.
